

EDUCATION

- **Arizona State University** Tempe, USA
Ph.D. in Computer Science; GPA: 4.00/4.00 Aug. 2018 – Present
- **Indian Institute of Technology Guwahati** Guwahati, India
Master of Technology in Computer Science and Engineering; GPA: 9.07/10.00 Aug. 2013 – May 2015
- **Shri Vaishnav Institute of Technology and Science** Indore, India
Bachelor of Engineering in Information Technology; Percentage 69.88 Sep. 2007 – June 2011

EXPERIENCE

- **NetApp India Pvt. Ltd.** Bengaluru, India
Storage Efficiency Developer July 2015 - July 2018
 - **Workload Prediction:** Predicting workload on a storage volume based on I/O patterns for All Flash systems.
 - **File and Volume Clones:** Developed features and managed issues related to file and volume clones on UNIX-based NetApp proprietary WAFL file system so as to improve the storage efficiency of data.
- **Tata Consultancy Services Ltd.** Pune, India
iOS Applications Developer Mar 2012 - July 2013
 - **Portfolio Management Applications:** Built applications for iPhone and iPad and developed tools so as to analyze the user portfolio in an interactive way.
 - **Cross-platform Applications:** Cross-platform mobile application development of mobile applications supported on both Android and iOS.

- Mayank Gupta, Pulkit Verma, Tuhin Bhattacharya, and Pradip K. Das. *A Mobile Agents based Distributed Speech Recognition Engine for Controlling Multiple Robots*. 2015 Conference on Advances In Robotics, 2nd International Conference of Robotics Society of India. July 02-04, 2015, Goa, India.
- Pulkit Verma, Mayank Gupta, Tuhin Bhattacharya, and Pradip K. Das. *Improving Services using Mobile Agents-based IoT in a Smart City*. 2014 International Conference on Contemporary Computing and Informatics. November 27-29, 2014, Mysore, India.

PROJECTS

- **Automatic Image Captioning:** Generating captions using CORR-LDA with Gibbs Sampling.
- **Improving VINs:** Replacing RNN update in Value Iteration Networks with gated updates like LSTM, GRU, etc.
- **Wisdom of Crowds:** Using crowds to analyze data collected from crowds.
- **Resource Usage Analysis for iVectors:** Impact of iVectors and JFA on resources in terms of power, space, etc.
- **AIS Robot:** The robot learns to avoid the dynamic obstacles using the principles of “Reinforcement Learning” and “Clonal Selection” technique used in Artificial Immune System.

PROGRAMMING SKILLS

- **Languages:** Python, C , C++
